

FP10 Fiber Pedestal

Priority's FP Fiber Pedestal is a key element of any FTTP solution. In both greenfield and brownfield fiber deployments, the FP Pedestal provides easy access to branch and drop splices. The perfect solution that allows technicians to mount multiple accessories with ample access to perform in-field splicing.

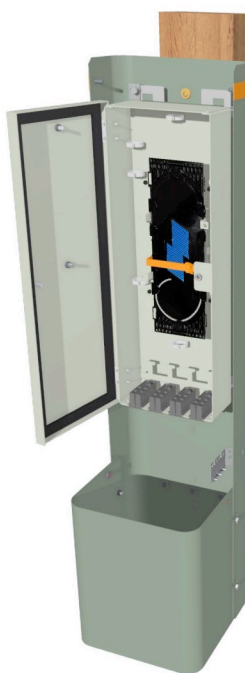

- A split base is designed to easily install around conduit-fed cable bundles in new construction.
- Bellcore 216 bolts securely holds the cover
- Accessories installed with a standard can wrench.
- Galvanized steel and powder coated
- Size: 42.5" H x 10.25" W x 10.375" D
